New [An Emerging Narrative on Latino Health Disparities and its Implications in the COVID-19 Era](#)

In this Q & A, AIR Institute Fellow David E. Hayes-Bautista, distinguished professor of medicine and director of the Center for the Study of Latino Health and Culture at the David Geffen School of Medicine at UCLA, explains his findings and the implications for health care policy and practice.

New [In Conversation: What Do Rising Rates of Anxiety and Depression Mean for Families, Schools, and Communities?](#)

	Early Childhood and Early Care
	English Learners
	Equity and Access
	Health and Human Services
	Postsecondary Education
	Remote Learning
	Special Education
	Teachers and Leaders
	The Well-Being of the School Community
	Workforce

As part of AIR's COVID-19 response to support educators and health and human service providers with evidence-based practices, AIR researchers analyzed data on anxiety and depression captured in the U.S. Census Bureau's Household Pulse Survey, a new biweekly instrument measuring household experiences during the pandemic.

[Coronavirus/COVID-19 Frequently Asked Questions](#)

The American Institutes for Research (AIR) compiled a list of Frequently Asked Questions (FAQs) from government officials and healthcare agencies to provide a broad range of information on the coronavirus (COVID-19). This five-page FAQs resource is written in plain language, enabling the information to be understood by our most vulnerable populations. These questions were reviewed by an emergency room physician. This COVID-19 FAQs resource is available in three languages:

- [English](#)
- [Spanish](#)
- [Cantonese](#)

Webinars to Advance Health Equity

IMPAQ (a wholly owned subsidiary of AIR) launched a new webinar series to provide action-oriented ideas and solutions for addressing long-standing health equity challenges exacerbated during the current COVID-19 crisis. These one-hour conversations were moderated by IMPAQ President Dr. Adaeze Enekwechi and feature nationally recognized subject matter experts from a variety of sectors.

- [Bridging the Digital Divide: Solutions for Telehealth Access & Equity](#)
- [Health Equity in the Time of COVID-19: Fixing Broken Systems to Serve Communities of Color](#)

[IMPAQ Launches COVID-19 Clinical Trials Tracker to Increase Access to the Latest Data on Potential Treatments](#)

IMPAQ Health researchers developed a publicly available dashboard for exploring the latest updates in the vast COVID-19 clinical trials landscape. Led by pharmacists Drs. Sanchari Ghosh and Zippora Kiptanui, the team compiled publicly available clinical trials data into an easy-to-use Tableau dashboard to help researchers, doctors, and others sort through and analyze the growing list of more than 2,500 COVID-19 clinical trials.

[The Skills That Matter in Adult Education: Health Literacy Issue Brief](#)

AIR developed this issue brief that addresses the following questions: What does it mean to have health literacy skills? Why is health literacy important? How do you implement the skills that matter in health literacy? What are some tips for teaching health literacy in your classroom?

[Resources for People With Spinal Cord, Traumatic Brain, and Burn Injuries During COVID-19](#)

The Model Systems Knowledge Translation Center (MSKTC) is supporting people living with spinal cord injury (SCI), traumatic brain injury (TBI), and burn injury to help them stay healthy during the COVID-19 pandemic. People living with these injuries can continue to improve their health and well-being during the pandemic by using a variety of free resources from the MSKTC website.

- [MSKTC Spinal Cord Injury \(SCI\) Resources to Help Stay Healthy During the COVID-19 Pandemic](#)
Resource list of factsheets, slideshows, modules, and related resources.
- [MSKTC Traumatic Brain Injury \(TBI\) Resources to Help Stay Healthy During the COVID-19 Pandemic](#)
Resource list of factsheets, slideshows, modules, and related resources.
- [MSKTC Burn Injury Resources to Help Stay Healthy During the COVID-19 Pandemic](#)
Resource list of factsheets, slideshows, modules, and related resources.

Policy and Program Resources

[The Promise of Telehealth for Addressing COVID-19](#)

The use of telehealth has increased during the COVID-19. The word “telehealth” is sometimes used interchangeably with “telemedicine,” but these terms mean different things. This brief explores those differences, how remote health care services work and for what conditions, and what policy changes have occurred to expand access to remote health care.

Podcasts

[AIR Informs Episode #1: Focusing on Facts and Evidence During a Health Crisis](#)

Information on COVID-19 is constantly changing, requiring people to adjust quickly in response to those changes. This can make it hard to cut through the noise to find reliable, evidence-based information. Dr. Elizabeth Salisbury-Afshar, a practicing physician, researcher, and director of the AIR Center for Addiction Research and Effective Solutions (AIR CARES), provides insights into navigating the crisis while avoiding a sense of panic.

Blog

[IMPAQ COVID-19 Blog Series](#)

IMPAQ experts offer timely updates and informed insights into the intersection of COVID-19 and pressing policy issues. Topics explored in these comprehensive articles include [rising unemployment and ACA health insurance coverage](#), [COVID-19 and the coming mental health emergency](#), and [telehealth expansion and equity](#).
